

Cherokee County Water & Sewerage Authority

January 21, 2025

RE: Water & Sewerage Availability (Tax Map 15N06F, Parcel 006)

To Whom It May Concern:

Please be advised that Cherokee County Water & Sewerage Authority presently has an 8" DIP water main on the South side of West Pine Ridge Drive North of the subject property.

Sewer is available to the North of the subject property. The acquisitions of easements to manholes or lift stations will be the responsibility of the developer.

The capacity for Rose Creek Wastewater Treatment Facility is 6.0 MGD and the Authority is presently treating 3.5 MGD. The Fitzgerald Creek Treatment Facility is 11.5 MGD and the Authority is presently treating 5.0 MGD.

There is presently no moratorium for water or sewer connections on the Authority System. Sewer connections are available on first pay, first serve basis. However, plans for any development must be submitted and approved by the Authority prior to any water or sewer connection application being accepted for processing. Also, existing infrastructure, size and location, must be verified by developer/engineer/contractor prior to submittal to Cherokee County Water and Sewerage Authority.

If you have any questions, please don't hesitate to call me.

Sincerely,

Bradley M. Payne
Construction Office Supervisor
